Well, now that you know how to adjust the game's options, let's start getting into the game itself. So if you're ready, turn the page to begin!

PLAYING THE GAME

If you want to start boxing right away, select **Arcade Mode** from the Main Menu and press **Enter**. Next, choose whether you want to play either a **One Player** game against an AI (Artificial Intelligence or computer-controlled) opponent, or a **Two Player** game against a friend (or foe). Highlight one and press **Enter**.

ONE PLAYER GAMES

The object of a **One Player** game is to box your way up to the title of **World Champion**. It's a long road, but well worth the trip if you're tough enough.

TWO PLAYER GAMES

There's no classes or Title Belts to worry about here, just punching and blocking against another player. This version of **Arcade Mode** is basically a "versus" mode way of playing.

NOTE: In order to play a **Two Player** game, you must select **TWO PLAYERS**. A second player may not "challenge" another player during a **One Player** game.

PLAYING THE GAME

CHOOSE YOUR BOXER

When you select boxers in **Arcade Mode**, highlight them and press **Enter** to select them. If you highlight them and press **Enter** + **Left**, you can change that boxer's costume. Each boxer has a few different costumes, so check each one out. Only visible boxers can be selected.

PRE-FIGHT HIGHLIGHTS

At the start of each fight, each boxer will be introduced by the one and only **Michael Buffer**, the Voice of Champions™. After the boxer introductions, each boxer will have something to say.

Depending on what boxers are squaring off against each other, some may have a bitter history that far exceeds the confines of the ring. When two boxers have a extreme dislike for the other, those "Bad Blood" matches will cause the boxers to say things they wouldn't normally say. So listen carefully, you might just learn why these two hate each other so much. To find out who each boxer's arch nemesis is, check out the boxers section (Pages 21-29) of this manual.

PLAYING THE GAME

HEALTH AND POWER METERS

Each boxer has their own Health and Power meters. Located in the top corners of the screen, these meters will rise and fall throughout the fight. When the Health Meter disappears, your boxer will be dazed on the canvas. When you do get knocked down, repeatedly press any two buttons to restore your health and get back on your feet. You will not be able to fully recover your health, but your Health Meter will be full enough to at least get back in the fight.

The Power Meter is essential for throwing power punches or for pulling off combos. If you attempt to perform a combo with no power, you will not be able to do so. The Power Meter drains with every punch or combo you throw, but it will quickly recover when you are not throwing punches.

PLAYER TWO

PLAYING THE GAME

RUMBLE!!!

Whenever you cause enough damage, you will earn a letter in the word RUMBLE. A little more difficult to execute is a Taunt. Taunting your opponent will not only cause a few laughs, but you will also earn a letter or two as well. Be warned, taunting opponents will leave you wide open for attack!

RUMBLE MODE

When you have earned the necessary letters to spell out RUMBLE, press **RI** and **RJ** at the same time to activate RUMBLE MODE. You must have the complete word spelled out (the letters will appear on the bottom of the screen) in order to activate Rumble Mode!

RUMBLE FLURRY

When you have activated Rumble Mode, your boxer's gloves will begin to glow. When the action resumes, press **R** and **A** at the same time to begin your attack. If you're going to use your Rumble Flurry, you've got to do it quickly. Once your gloves glow, they'll only stay that way for a few seconds.

FLURRY 1 - Spell RUMBLE one time to unleash a quick series of punches on your opponent.

FLURRY 2 - Spell RUMBLE twice to let loose a stronger and faster series of punches.

FLURRY 3 - If you can do it, spell RUMBLE three times to perform a flurry so strong, that one punch will send your opponent flying out of the ring.

CHAMPIONSHIP MODE

Championship Mode gives you ownership of a gym in which to train your boxers. Your goal is to make all of your gym's boxers champs. It's up to you to train them for their fights and it's your responsibility to keep them trained. Each of your gym's boxers must become champs in order to fully beat the game. You can train your boxers for upcoming fights. These fights are shown on a calendar and are separated into Prize Fights (for money) and Title Fights. Make sure to check out the calendar for your boxer's next fight! Make sure you train for your fights too, because if you lose three Title Fights, your gym will close and you will lose the game. All fights can only be fought on their determined dates, so take the time off and train for them!

From the Main Menu, select CHAMPIONSHIP MODE and press . If you are using a Memory Card, you will be able to save your progress. After selecting Championship Mode, you can either begin a NEW GAME or LOAD a previously saved one.

Next, you will select your first boxer for your gym. Only boxers that are unlocked will be selectable. Choose the one that you like the most and press

. Your objective is to take your boxer (who is unranked) and move them (through Title Fights) up the ladder, all the way up to champ.

The Championship Mode Menu is the center of your gym. This is where you can train your boxers, schedule their upcoming fights, view their attributes and more.

CHAMPIONSHIP MODE

TRAIN BOXER

You have to train your boxers for their fights. Your gym contains a series of 7 challenging and fun mini-games designed to improve your boxer's performance. We'll get into that more on Pages 16-17.

TITLE FIGHT

Enter fights to become a ranked boxer. Initially, your boxer will begin their career unranked, fighting to be the 12th Ranked contender. The more fights you win, the higher up the ranks you'll climb. When you highlight TITLE FIGHT, you will see the opponent you have to beat. It won't be an easy task, so make sure you train your boxers well. After all, the success of your gym depends on their performance in the ring! If you lose three fights, your gym will be closed and out of business (and your game will be over). Make sure you look for the microphone icon on the calendar; this indicates your next Title Fight.

PRIZE FIGHT

In order for your gym to succeed financially, as well as purchase the vital training aids VITAMIN PROGRAM and RUMBLE MASS (see Page 17), you'll need to win money. Prize Fights allow your boxer to duke it out for a cash prize. The \$ icon on your calendar is your next Prize Fight, so make sure you train for it!

EXIT

Exit Championship Mode and return to the Main Menu. To exit, highlight EXIT and press . You have the choice of exiting and saving your progress or you can exit without saving your progress. You may also cancel the exit command.

CHAMPIONSHIP MODE

Training your boxer is an important part of beating Championship Mode. Each training game is designed to improve certain attributes of your boxer. When selecting a training game, you can play the training game yourself (MANUAL TRAINING) or have the game make your attributes for you (AUTO TRAINING). These attributes are:

STRENGTH - This measures the power and strength of your boxer's punches.

STAMINA - This determines how long your boxer can last in the ring before getting tired.

ENDURANCE - How much punishment can your boxer take?

DEXTERITY - This attribute controls your boxer's speed. The higher the dexterity level, the faster your boxer will move.

EXPERIENCE - How many fights has your boxer had? The more Title Fights you enter, the more experience you will gain.

You should always try to improve your boxer's attributes after each bout. When you do train your boxer do as many training games as you can to improve all of your boxer's attributes, not just one. This helps to make your boxer's attributes even and not strong in just one or two. What good is a boxer with tremendous strength who doesn't have the stamina to last in a single fight? In order to get your attributes as high as possible, select Manual Training. Using Auto Training will cause your attributes to decrease the more you play the training games or the higher level of difficulty in the training game you use. In other words, the more you train, always build your attributes using Manual Training!

To train your boxer, highlight TRAIN BOXER and press . Next, press Left or Right on the Directional buttons or Left Analog Stick to view the training games. These training games are listed as equipment. Select your training game by pressing . After that, you can select the level of training (difficulty) by pressing Left and Right (if you are using AUTO training, there is no difficulty setting). When you're all set, press  to continue.

CHAMPIONSHIP MODE

Next, you will determine how long you want your boxer to train for. Using the calendar which appears, highlight the day you want training to END. The more days you choose, the more the attribute will rise. When building up attributes, remember to watch the attribute meters closely. Your attributes will rise or fall depending on your length of training. GREEN indicates an increase in the attribute, while RED shows a decrease. Remember to watch the calendar for your next fight and train for it!

TRAINING GAMES

The training games are basically mini-games which help improve your boxer's attributes. Depending on how well you did in the training game, your boxer's attribute (based on what type of training game you played) will rise or not move at all. The training game rules are displayed before you begin a training game, so pay close attention before beginning. When you're ready to begin play, press .

JUMP ROPE

The Jump Rope training game helps to build up your Stamina, Endurance and Dexterity. Press the appropriate buttons at the precise time to score.

SPEED BAG

Throw punches, earn points and improve your Strength and Endurance in this training game. Punch the speed bag to earn points. The more you make the bag hit the ceiling, the more points you will earn.

HEAVY BAG

This game improves your Strength and Stamina. You will be told what punches to throw and you must throw the exact punches to score points. Remember that the more points you get, the more your attribute will grow.

CHAMPIONSHIP MODE

SWAY BAG

Improve your Stamina and Dexterity as you punch and then dodge this fast-moving bag. Throw the desired punch and follow the desired movements to score big in this training game.

RUMBLE PADS

Designed to improve your Endurance and Dexterity, this piece of equipment challenges you to throw punches as fast as you can. Throw the desired punch quickly, because these pads will disappear.

RUMBLE AEROBICS

Follow the lead of the bubbly Julie the Aerobics Instructor. She'll tell you the moves and leave it up to you to repeat them. The Rumble Aerobics training is designed to improve your Endurance and Dexterity.

WEIGHT LIFTING

This training game improves your boxer's Strength. Lifting weights causes a meter to rise. Keep the meter in the desired area to build points and muscle!

NON-GAME TRAINING

There are two non-game ways of training your boxer. The VITAMIN PROGRAM and RUMBLE MASS regimens must be paid for. To pay for each program, you must win money in Prize Fights. The Vitamin Program will improve your boxer's stamina and dexterity and costs \$10,000 for each session. The Rumble Mass program will improve your boxer's strength tremendously. The cost for the Rumble Mass training is a staggering \$25,000.

TOURNAMENT MODE

Tournament Mode allows you to set up your own tournament with up to eight players. From the Main Menu, highlight TOURNAMENT MODE and press **X**. Select the number of players competing by pressing the Directional buttons or Left Analog Stick Left and Right (you can select from 3 to 8 players). Next, press **X** to proceed to the name entering portion of your tournament.

The next thing you will do is enter a name for each player participating. Letters can be entered by pressing **X**. When you are finished entering a name, highlight END and press **X**. To enter another player's name, press **X** when the player name line is highlighted, then follow the name entering instructions above.

After each player has entered their names, it's time to choose your boxers. In numerical order, each player will select a boxer by highlighting them using the directional buttons or left stick and then pressing **X**. The next player must press **X** first before attempting to choose a boxer. This tells the game that Player One is set and Player Two is ready to begin. When all players have selected their boxers, it's time to view the matchups.

The game will automatically set your matchups. If you are playing with an odd number of players (3, 5 or 7), one player will have to face a computer-controlled opponent in their first match. If the computer opponent wins that match, it will remain in the tournament until beaten.

TEAM BATTLE MODE

This game mode allows you to choose a team of up to eight boxers and go against another team. From the Main Menu, highlight **TEAM BATTLE MODE** and press **X**.

This is a One or Two Player game mode, so choose how many players there will be and press **X**. Next, select how many boxers will be on each team. Select between 4 through 8 and press **X**.

Each player can select their boxers by highlighting them and pressing **X**. If you wish, you can choose the same boxer as many times as you want. After each player has selected their boxers, it's time for the battle to begin.

The first player to eliminate the opposing player's team is the winner.

Knoxmov has for the past three years gone on an international tour, showcasing himself and his products on international the world over, which have garnered him a particularly strong following in the Americas. Looking that a return to the ring would lengthen his US version of fame and his capitalistic Knoxmov, Knoxmov is back with rings, sponsorships, and renewed age.

THE BOXERS

BUTCHER BROWN

Hometown: District of Columbia
Height: 5-8 Weight: 225
Reach: 32" Age: 30
Arch rival: Stone Knuckles

Borned from boxing five years ago, he took the mystical and deadly knockout punch dubbed "The Deliverator" as an embodiment of "The Brawler" Bruce Blaine. Butcher Brown has been rehabilitated and is turned, rested and ready. One problem: his former mentor who long taught to instill some macho-muscular mental stability into the life of Brown, has since retired. Although he's physically ready to rumble, Brown must follow the path of mental discipline in order to regain the championship.

ANGEL "RAGING" RIVERA

Hometown: Modesto, Nevada
Height: 5-10 Weight: 193
Reach: 74" Age: 26
Arch rival: Rocket Sanchez

Although Angel "Raging" Rivera's name is usually preceded by the word "shoutout," he's far from being all style and no substance. He finally rubbed a championship when he defeated Rocket Sanchez in a grueling, controversial twelve-round battle. Rivera began his career as a playboy punk, exchanging flashiness for speed, conventional techniques but altered her approach when it was to an untimely foe. The transformation complete, Rivera proves that style counts by itself.

MAMA TUA

Hometown: Kailua, Oahu
Height: 5-0 Weight: 405
Reach: 77" Age: 32
Arch rival: Selene Burke

Mama Tua entered the Ready 2 Rumble ring quite by accident, but it will be her opponent's mistake if they take the 400-pounder lightly. Mama took up boxing as a means of working out and staying fit, but soon realized she had an affinity for handling heavyweights due to her long days raising non-Sakas, the fastest boxer who recently turned wrestler. The family skills are evident in Mama, who obviously doesn't need to run vertically through her chest. Short on ring experience but long in the tooth (and in the sock), Mama is an unwilling contender.

Joey T. hated his boxing skills as a rubbered boxer, so it shouldn't come as a surprise that he was completely terrified when he lost to a girl, Lulu Valentine. After that humbling defeat, Joey T. vowed to never get knocked down again and has trained on his formerly noteworthy boxing skills. With Maria Liu as a sparring partner, Joey T. has added a new arsenal of punches to complement his bone-crushing Moon. The next goal for Joey T.: containing that legendary longer.

Using distinguished Chinese boxing techniques complemented by his own, proven ones, Chin has trained some of the greatest boxers in the globe, including Afro Thunder and Nacker Sanchez. Not content to retire from his own career, of course, Chin believes that his experience as a trainer combined with his speed as a boxer have enabled in him becoming a more complete fighter. Arch rival: Joey T.

Lulu Valentine is no one-dimensional woman, and these two dimensions—boxing and fashion design—hardly seem compatible. But we're talking about Lulu Valentine, who possesses the fastest punch on the block. Critics wonder whether she's coming back to the ring for a legitimate shot at the championship or merely to promote her successful line of trendy sportswear. Either way, Lulu's sure to bring excitement to the series, whether it's with her boxing prowess or signature fashion statements.

J. R. FLURRY

Hometown: Los Angeles, California

Height: 5-11 Weight: 150

Reach: 75" Age: 24

NOTE: J.R. Flurry does not have an arch rival

Maturity has done a lot for J. R. Flurry. Once dubbed "The Prudent Pugilist" because of the manner in which he turned on his former coach, Gene Stille—who then told Flurry in the ring and handed him his love object, Flurry has since boxed with his opponent, Stille, with ease. Make no mistake, however, you'll still find some attitude from Flurry, but now it is only punishment to reflect skills and superior knowledge of the sweet science. Prudent no longer, Flurry presents a big challenge to all his boxing opponents.

JOHNNY "BOB" BLOOD

Hometown: Papakotahi, New Zealand

Height: 5-7 Weight: 271

Reach: 87" Age: 21

Arch rival: "Iron" Glen

Johnny "Bob" Blood, brother of former Pacific participant Jerry Blood, is a walking contradiction. Despite the fact that he's had the same lineage of a sheepherder most of his years, Blood has also tempted death in his native New Zealand by engaging in the more brutal of animal pits and back stings. And although his Moor fighting ways are savage, Blood displays a certain control, partly fueled by his disfigured arms, to measure up to the great successes of his brother.

"BOB" WILLY JOHNSON

Hometown: Chester, England

Height: 5-5 Weight: 175

Reach: 75" Age: 111

Arch rival: ROBOX RESE-4

"Big" Willy Johnson is in a time warp, but one that has served him well. A grade school hero, Johnson would prefer to fight without gloves but has adapted to the modern age by utilizing some current boxing techniques. That combination of old-time boxing discipline and advanced technical method has made him a champion and complete terror and one who threatens confusion in one-dimensional foes. It's somebody else's job, however, to convince him his look is about as stylish as a home-land-cow-boy.

THE BOXERS

ROCKET SAMCHAY

Hometown: Bangkok, Thailand

Height: 5-2 Weight: 185

Reach: 75" Age: 28

Arch rival: Angel "Raging" Ruam

Rocket Samchay has his eyes on the championship. Or, to be exact, he has the boxer too, only one remaining finger of sight after losing the other courtesy of Angel "Raging" Ruam's thumb. A return to his native Thailand to compete in Thai boxing tournaments helped him regain focus and add some initial new moves. Having turned his skills among some of the greatest Asian fighters in his region, Samchay brings a special residency in his quest to succeed in the Rumble Tournament.

G. C. THUNDER

Hometown: Miami, Florida

Height: 5-7 Weight: 119

Reach: 70" Age: 33

Arch rival: Afro Thunder

G. C. Thunder may be a bit dramatic, but he's no lightweight when it comes to boxing or Rumblebox fashion. Golden and long-time rival of Afro Thunder, G. C. has a fair amount of contacts who claim he's more performer in the ring than boxer. That hasn't discouraged him from using his boxing experience as a vehicle for spurring a chain of fast facilities or from making the claim that he'll become the next world champion.

ROBOX RESE-4

Hometown: Chicago, Illinois

Height: 5-11 Weight: 160

Reach: 80" Age: 1

Arch rival: "Big" Willy Johnson

ROBOX RESE-4 may be being used as a marketing ploy, but don't tell it to its face. If anything non-human can have a love, that is. Designed to advertise for ROBOX, an amazing boxing cardio-fitness machine that is backed up by perhaps the next great health invention, ROBOX RESE-4 does more than just exercise. It is an advanced version of the machine that is able to take punishment and, when prompted, hand some back. The days of the stationary bike certainly are gone!
